FAQ

17 Book Now

N 10 – P 10 – K 10 (½ strength)  Indoor houseplants Balanced, diluted liquid feed monthly in spring/summer. Stop feeding entirely over winter.	Low-phosphorus blend  Australian natives Many natives are phosphorus-sensitive — use a dedicated low-P native fertiliser, applied lightly in spring and autumn.
N 8 – P 3 – K 9 + Mg  Citrus trees Feed in early spring, late spring and autumn. Added magnesium prevents the yellowing common in potted citrus.	Compost + slow-release  General garden beds A balanced slow-release granular feed at planting, topped up with compost twice a year, suits most mixed beds.

DEFICIENCY	WHAT YOU'LL SEE	QUICK FIX
	Uniform pale yellowing, starting on	Higher N feed or blood &
